

Eco-friendly ideas for our school

By Dev and Freya L

1.

To Mr Holmes

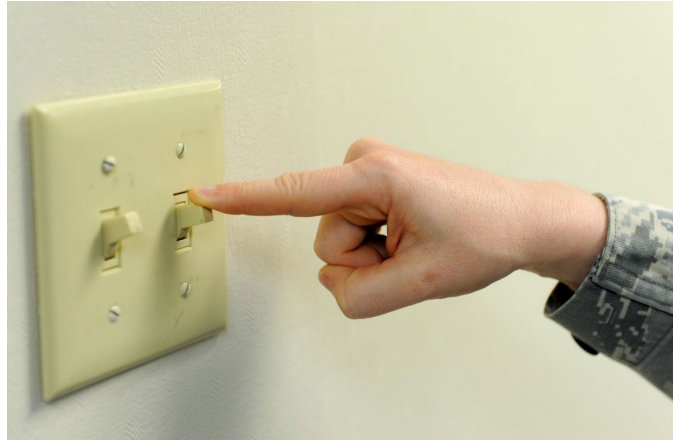

As we use a lot of glitter at Christmas and it is not good for the environment, we thought we could go into the wild area find leaves and petals and use whole punchers to cut it and use it as an eco friendly glitter. We would need more whole punches to do this please.

2.

We were wondering if we can have these other things too please.

To save money on energy we could have electricity monitors in school to turn off whiteboards and lights in brake time. Because it is a lot of money to spend and it is not very good for the enviroment. Or we could have lights on a sencer just like the toilet in the staff room.

3.

Thank you for reading this. We hope you can make some of these changes.
