Eco-friendly ideas for our school!!

By Axl & Zach

Why would you use plastic & damage our planet? We are thinking of making a plastic only bin for school so we are better at recycling.
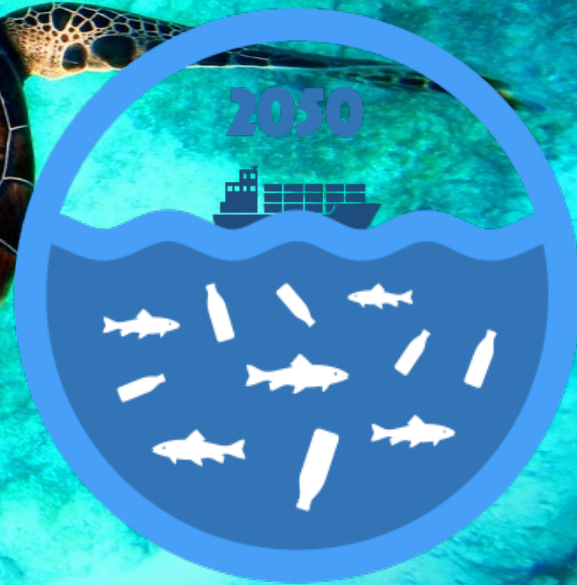

Our world is losing more & more sea life every day because we are throwing plastic into the ocean & killing sea creatures but school could have plastic only bins so we can recycle & reuse plastic.

Please help!

We beg you!

HELP

2050

Our planet will have no more space if we keep doing what we are! We are planning

About making a plastic only bin you can help us do this by donating money to our school.

Our fish are dying because of

us

Help our planet by recycling plastic into the right bin.
