HEADTEACHER: Mr S Holmes

Dear Parents/Carers,

It's that time again! We are excited to announce we will be selecting Science Ambassadors from our KS2 classes (Year 3-6) to work closely with the Science Leader to encourage and share the love of science across the school. This is an amazing opportunity for children who are interested and passionate about Science to shine!

Last year, our Science Ambassadors were amazingly successful in promoting all things Science in our school from supporting during science week and performing spectacular experiments in our assemblies.

Job description

Their role will include:

- To share ideas and suggest ways to improve science at Aston Hall.
- To help with the organisation of Science resources.
- To assist teachers in setting up their classroom for Science lessons.
- To take part in pupil voice (questionnaires about Science).
- To feedback important information related to Science to their class.
- To help in the planning and organisation of Science Week (March 2023).
- Help showcase Science in our school through our assemblies.

If your child is interested in becoming a Science Ambassador, they need to create a letter/poster/PowerPoint/video and explain why they would be a good Science Ambassador for our school and how they think they could improve Science teaching and learning at Aston Hall. All entries can be sent to their class teacher.

All applications to be brought into school by Friday 11th November with Science Ambassadors being chosen Friday 18th November.

Thank you,
Mrs Selman
